### FIBER Prints:

Images are created with a high-end inkjet printer on a traditional fiber base paper reminiscent of original darkroom prints.

### METALLIC Prints:

Images are created with a high-end inkjet printer on a metallic based paper giving them a special glow in both highlight and shadow areas.

### CHROMOGENIC Prints:

These images are created using lasers to expose the digital file onto a chemically processed paper. When viewed these finished images seem to radiate light. All images are laminated to the back of a Plexiglas sheet ready to hang on your wall.

### PAYMENT & SHIPPING:

We accept payments by check or any major credit card.
